

Recording and Uploading your Video to Horse Show Tracker

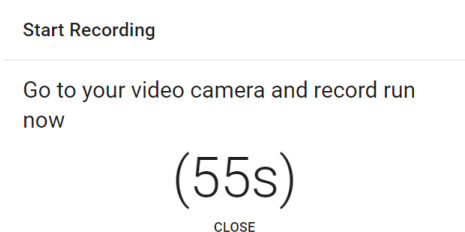

1. After entering your classes, you can go to two places to record your video. You can click on Classes or Concierge. If you click on concierge, you will then select entered shows. If you click classes navigate to the working order. You will not show up on the working order until your entries have been processed. BUT you can still record your video by going to entered shows.
2. After you navigate to the draw or entered shows select your Class and you will see a screen that looks similar to this - Tap Record

3. Tap I Am Ready To Record. You will have 60 seconds to switch to your phone camera and record the video. (your video can be longer than 60 seconds, the timer helps track the live video aspect.

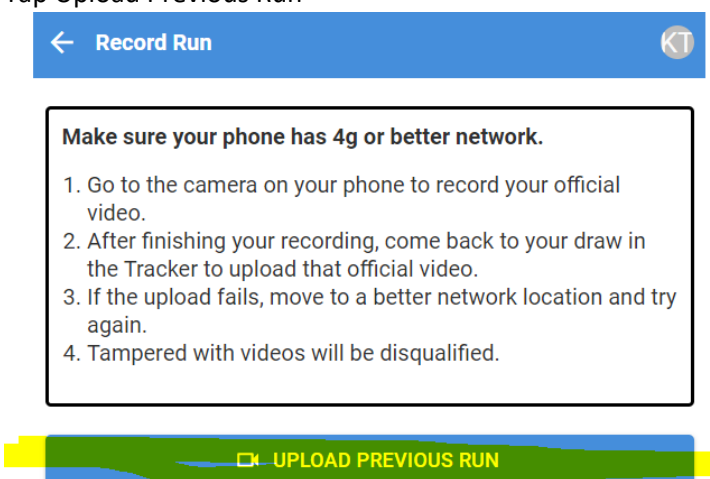

4. Once down timer starts, pull up the camera on your device and record your video which will save to your phone

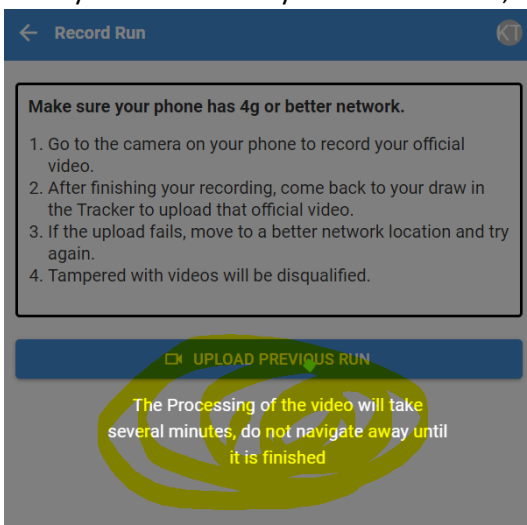

5. When you are done recording your video, go back to Horse Show Tracker (timer should have run down)

6. Tap Upload Previous Run

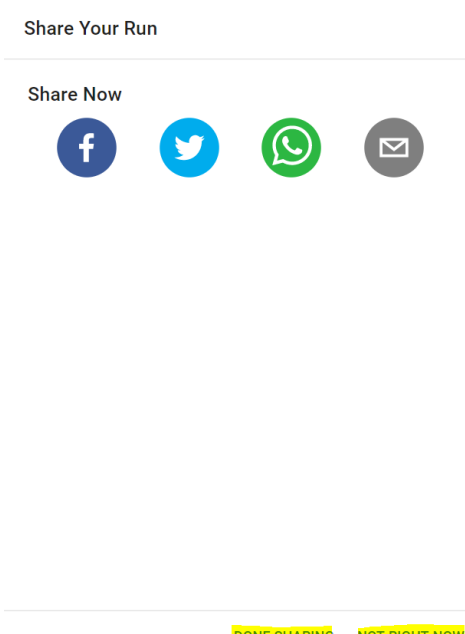

7. Follow your device instructions and find your video/photo library and choose the run you have just recorded – each device is different

8. Once you have correctly chosen the video, the app will process the upload

9. Feel free share your video on Facebook or other social media options

10. You can then watch your video back in the Working Order or Tracker Feed (bottom right of any screen)
